We can guarantee an exact colour match to almost any hair colour, and the extensions can help you achieve many different looks, including:

- **lengthening & volumizing**
- **amplifying style with texture & curl**
- **adding flare with bold colours!**

Great Lengths are made with 100% authentic human hair and use a patented protein bond with a similar molecular structure to that of human hair, ensuring they can withstand any conditions your own hair can withstand. The hair comes in over 40 different colors and shades. Fashion colors are also available for the more daring!

Your technician can apply at least 2 different colors for the most beautiful, natural-looking colour blend, and the hair can also be pre-treated to achieve virtually any desired texture.

Your Teknik hair extension expert will guide you through an in-depth consultation prior to your extension appointment. Call or come by to book your consultation today!
